ORANGEVILLE, ILLINOIS

## TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5% above the highest actual bid entered.

**The terms are prompt cash settlement** after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

**Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.**

**Coins will be bought below your bids** where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.**

**Be certain that you bid on the lot you wish to buy.** We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. **Be careful in making your bids.** Be sure that you bid on the lot you wish to buy, and **at so much per piece.**

**Bids must reach me by the morning of the sale.** Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same,

and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for one dollar, cash with order in advance. Or it will be furnished to bidders at this sale for only 25 cents in coin, if ordered in advance of the sale, and a quarter is enclosed with the bids. It is a great help and a satisfaction to keep posted on values.

893. Apr. 10, 1777 Pennsylvania red and black 40 shillings. Fine.

## UNITED STATES NOTES

An unusually fine and large collection of the old large size paper money. The increase in the number of exhibits of these notes and their popularity at the recent Annual Convention of the American Numismatic Association seems to point to a fine future for collectors of these items today. Not much of this material is coming in today. All bills are in superb uncirculated or crisp condition unless otherwise described. The prices are Mr. Bolender's estimates of the value of each lot, and a guide to collectors as to about what to bid for a good chance of success.

## U.S. LEGAL TENDER NOTES

### **A TRIP ABROAD**

(Continued from 118th catalog)

Travelers will, as a rule, get more out of their experiences, if they order and eat the foreign meals from menus. Occasionally one likes a home meal, however, and after an American breakfast in Copenhagen on the morning of July 23, we boarded a train for Berlin, Germany. Several hours are spent in ferrying the train at two places, from island to island, and at our first sight of Germany we see numerous airplanes above. Yes, Germany is air-minded. A great deal of our time, before our entry into Germany, was used in making out our schedule of money. For once in our life we wished we did not have so much money. The German government demands that all persons entering Germany must schedule all their money, and that they shall not take out of Germany more money than they brought in.

Everyone was busy for an hour listing how much Danish money, Swedish kroner, American dollars, German marks, etc., he had in his possession. Travelers' checks were also scheduled. All other foreign money had to be listed. Imagine the trials of a coin collector, when he digs down in his luggage and hauls out a few large bank sacks of foreign silver and other coins that he intends to use

in his travels, in the respective countries. "Herr Fuehrer, kommen sie hier, bitte!"

"Mein Gott! Was ist das?" shouts the Fuehrer.

"Das ist ein munzsammlung. Ich bin ein munzhandlungen." The customs officers and German law agents are courteous enough, and seem to appreciate any efforts of Americans to speak the German language. A brief parley is held, and they agree to admit the huge sacks of foreign silver coins intact, without an itemized account. And that was really a big job saved.

The experienced traveler will buy in some foreign city, or at home, all of the German marks that he can use for his entire stay in Germany. In so doing you buy the tourist marks at about twenty cents each, while in Germany they cost twice as much. You must buy these cheap marks before you enter Germany, and you must spend them in Germany if you want to get the benefits of the exchange. Your tourist marks you buy are just like any other German marks, and they buy things in the country the same as the 40-cent marks. The traveler is limited to spending about twenty dollars' worth of these cheap marks, or enough for necessary expenses, such as hotel bills, railroad fare, meals, and incidental expenses. Of course, it is quite easy to spend some of the balance for souvenirs, and even for coins, a few bought in a shop here or there. It is to your advantage to spend your full quota, because of this very favorable system the Germans have provided to encourage tourists. However, at the present writing, I would not advise travelers to enter Germany because of the unrest over Czecho-Slovakia. At this moment the situation is most tense, and by the time this reaches the readers, a change of importance has come about.

(To be continued)

For 50 years its monthly visits have been a source of inspiration and a stimulus to all grades of collectors from the beginner to the advanced student.
